

## Communication unit for earmuffs

Professional and cost effective communication solution that increases personal safety and work efficiency.

Connects to two-way radios, cell/mobile and cordless phones.

Fits almost any type of earmuff maintaining the protective function.

# SAVOX noise-com®

## Communication unit for earmuffs

noise-com®

The SAVOX noise-com® is a new type of hands-free accessory for professionals working in high-noise environments.

The noise-com® provides a flexible and cost effective communication solution while it comfortably fits in almost any muff type of hearing protectors, turning them into a professional communication headset. Still it maintains the function of the hearing protector.

The noise-com® is light weight, durable and ideal for industrial and utility personnel, airline ground crews, public safety applications etc.

The intrinsically safe noise-com® connects directly or through a SAVOX com-control/PTT unit to most types of two-way radios and mobile/cellular phones equipped with an accessory adaptor.

### Specifications

|                        |  |   |
|------------------------|--|---|
| Weight                 | 81 g   |  |
| Size                   | 70 x 175 mm  |   |
| Mic supply voltage     | 2.5...15.0VDC  |   |
| Directivity            | noise cancelling   |   |
| Mic impedance          | 2500 ohm @ 1 kHz   |   |
| Speaker impedance      | 360 ohm @ 1kHz (±15%)  |   |
| Distortion             | Typically less than 2%, 300 Hz...4 kHz   |   |
| Coiled cable           | Ø 4mm/270mm, PUR, flame retardant  |   |
| Connector              | according to radio/phone,<br>or 4-pole quick release plug<br>with SAVOX extra large PTT unit |  |
| Operation temp.        | -25...+63°C, weather proof device  |   |
| Humidity               | 95% RH, +63°C for 500 hours  |   |
| Intrinsic safety class | EEx ib IIC T5/T6   |   |
| ESD, EMI immunity:     | confirms with the ETS 3000 279, 1996   |   |
